

Zurich Workshop on Medical Humanities

Tuesday, April 5, 2016 from 12:00 to 15:00

Medical Humanities: Mapping the Landscape

The Center for Medical Humanities of the University of Zurich is organizing a workshop on Medical Humanities, following up on the meeting 'Was ist Medizin? Perspektiven aus den Medical Humanities,' which the Center hosted in November 2015. The aim of this coming up workshop is to continue to learn from each other's experiences and expertise regarding the field of medical humanities. We will share what is being done locally, nationally, and internationally in the field of medical humanities. The main goal of this meeting is for us to learn from people involved in medical humanities in Switzerland. This workshop is therefore meant to be a platform encouraging an exchange of ideas and suggestions to further develop the field of medical humanities in Switzerland. This will enable us to continue building and shaping the field of Medical Humanities in Zurich and elsewhere.

Preliminary schedule

12:00	Apéro
12:30 – 12:40	Welcome and moderation, <i>Nikola Biller-Andorno</i>
12:40 – 13:00	'Medical humanities – a brief international overview', <i>Johann Roduit</i>
